PROFESSIONAL SUMMARY

Industrial Engineer with hands-on experience in garment manufacturing, specializing in line balancing, manpower planning, work measurement, and data-driven production improvement. Strong background in real-time manufacturing data analysis, IE automation, and cross-functional collaboration with Production, Quality, Analytics, and Development teams. Proven ability to bridge shop-floor operations with analytical insights to support efficiency, quality, and decision-making.

EDUCATION

Bachelor's degree in business administration Rajamangala University of Technology Isan. May 2020 – April 2026
Related Coursework: Operations Management, Business Management, Business Analysis
GPA: 2.76/4.00

EXPERIENCE

HBI Manufacturing (Thailand) Co. Ltd April 2024 – April 2026

Industrial Engineer

- Conducted line balancing for new and existing styles, including construction analysis, layout planning, and bottleneck identification.
- Monitored daily line efficiency and prepared weekly line balance reports for production, IE, and planning teams.
- Managed manpower adjustments based on attendance and performance; rebalanced lines to optimize capacity utilization.
- Maintained Skill Matrix, Efficiency Matrix, and weekly headcount (HC); coordinated manpower requests with HR.
- Performed time studies and Gemba walks to identify root causes and implement corrective actions.
- Supported quality issue analysis using 4M methodology in collaboration with cross-functional teams.

Data Analysis & Digital Improvement

- Analyzed real-time production data to identify performance gaps and improvement opportunities.
- Transformed raw system data into management reports and dashboards.
- Collaborated with Analytics and Development teams to validate data accuracy and resolve system issues.
- Supported development of a line balancing prediction model to reduce manual IE workload.
- Automated IE reporting and data extraction using Python and SQL.

HBI Manufacturing (Thailand) Co. Ltd Nov 2023 – Mar 2024

Industrial Engineering Intern

- Supported auto line balancing projects through data collection, testing, and analysis.
- Assisted senior IEs in productivity improvement initiatives on production lines.

HBI Manufacturing (Thailand) Co. Ltd May 2018 – May 2020

Quality Control

- Performed end-line QC inspections, outgoing AQL inspections, and final audits prior to shipment.
- Prepared quality inspection and audit reports to ensure compliance with standards.

HARD SKILLS

- Line Balancing & Capacity Planning
- Work Measurement (GSD, SMV, Time Study)
- Manpower Planning & Headcount Control
- Production Build-up & Ramp-up Planning
- WIP Control & Productivity Improvement
- Bottleneck Analysis & Throughput Optimization
- Root Cause Analysis (4M, 5 Why, Pareto)
- Lean Manufacturing & Continuous Improvement

SOFT SKILLS

- Data-driven problem solving
- Cross-functional collaboration (Production, QA, Planning, Analytics)
- Effective communication with operators and management
- Adaptability in fast-paced manufacturing environments
- Analytical thinking & attention to detail
- Continuous learning mindset

Certification: Data Science Bootcamp, Coursera.
Computer: Microsoft Excel (Advanced), PowerPoint, Power BI, Word, SharePoint, Python (Basic syntax), SQL (Data querying & extraction).
Language: Thai (Native), English (Basic).
